#### Posternr. Title

---

P001	Volunteering and quality of life in middle aged and older adults: Causation or Selection?
P002	Environmental mobility facilitators and personal goal setting in old age
P003	Perception of Older Adults on Age-friendliness in One city in South Korea
P004	Ageism and Swedish Media
P005	Nursing Students' Attitude toward Old People in Thailand: A Cross-Sectional Study
P006	Ageing men as objects of evaluative gaze
P007	Creative Ageing – Creativity and the Practices of Growing Old
P008	Improved patient-safety for older adults undergoing hip surgery - Coaching to self-care
P009	Using conversation analysis to explore person-centred care-planning in older people's care
P010	Interface Evaluation of Home-Based Health Care Information System for the Elderly in Taiwan
P011	Frail older adults in need of help to personal hygiene in home-care setting
P012	Activity profiles of vulnerable older adults
P013	Formal and Informal Volunteering among Older People in Germany – Complement or Competition?
P014	The association between leisure activity in adulthood and cognitive function in old age
P015	Birth cohort differences in proportion of individuals showing cognitive decline, stability or gain
P016	Associations of Inequality of Educational Opportunities and Later-life Cognitive Trajectories
P017	Cultural Gerontology: new developments in an emergent field
P018	To take control over finitude. Older adults relation to time, future and ageing
P019	The portrayal of ageing baby boomers in Japanese newspapers
P020	Emotional availability in the caregiver-patient dyad in institution for older adults with dementia
P021	Hand-Eating therapy in the Cognitive and Behavioral Unit (CBU) of Blois Hospital Center, France
P022	Implementation of a stepwise intervention for pain and challenging behaviour in dementia (STA OP!)
P023	Living with Dementia in Iceland
P024	Abuse of Older Persons with Dementia
P025	How Much Eldercare in Request? Projections of Demand for Care Among the Elderly in Poland
P026	Mortality, marriage and grip strength
P027	Depressive symptoms among Chinese older adults treated in primary care: an epidemiological survey
P028	IMPACT OF DEMONETISATION ON DIGITAL LITERACY OF ELDERLY PEOPLE OF KERALA, INDIA.
P029	Is Aging and Health a Theme in Learning Outcome Descriptors in Norwegian Bachelor Programs?
P030	Architectural best practices in primary care towards family clinics adapted to aging
P031	Behaviour Change Techniques in a Fear of Falling Program: Older Adults' Preferences
P032	From society of widows to society of divorcees – late life singlehood revisited
P033	Interests, ideals or identifications? On the attitudes to welfare state priorities among older and younger generations in Norway

- P034 The loss of a spouse in old age: Disruption of meal experiences and practices
- P035 Everyday food acquisition, food security and ageing.
- P036 An explanatory model for the help-seeking intention for dementia among the lay public
- P037 Unequal wealth & well-being: Does wealth help to benefit from shifts in late work and retirement?
- P038 Life-course, ageing and generations in Norway: the NorLAG study
- P039 Going Web or Staying Paper? The Effect of Survey Design in a Retirement Transition Study
- P040 Development of a smartphone application for self-assessment of physical function
- P041 The Association of midlife factors with active and healthy ageing (AHA) among older businessmen
- P042 Can Psoas Cross Sectional Area be used as a Surrogate for Markers of Cardio-Respiratory Performance?
- P043 Removal of modified proteins from human plasma – potential effects for inflammation and senescence
- P044 The level of epigenetic age acceleration in blood changes only modestly during adulthood
- P045 Glutathione levels and rate of multimorbidity development in older adults: a longitudinal population
- P046 SENSITIVITY OF CaCo-2 3D SPHEROIDS FOR FRESH ROYAL JELLY (F-RY) (M) AND HuIFN- $\alpha$ 3
- P047 An audit on longterm rate and rhythm control in chronic AF in a Maltese Geriatric Hospital.
- P048 The association of atrial fibrillation and antithrombotic treatment with cognitive aging
- P049 Does cardiovascular drug-therapy differ among old people living in nursing homes or at home?
- P050 Thymus and activation-regulated chemokine (TARC)/CCL17 and IgE are related to elderly asthmatics
- P051 Mobility limitation and cardiovascular and neuropsychiatric diseases: impact on mortality
- P052 Time to improve delirium diagnostics in hospitals? Delirium screening with 4AT
- P053 Pain Medication Use and Quality of Life in Persons with Advanced Dementia
- P054 Does the asthma medicine montelukast protect against dementia?
- P055 Future focus on prevention: drug induced and drug aggravated dysphagia in the elderly patient
- P056 Aging as result of racemic oxymoron, fractal and anti-fractal, Moebius strip like processes
- P057 Unmet need of physical activity and quality of life among older people: a 2-year prospective study
- P058 Challenges and motivators to physical activity faced by retired men when ageing. A qualitative study
- P059 Physical Function After The Resistance Training Among Older Adults With Metabolic Syndrome
- P060 Torshavn Survey
- P061 Does Active Ageing Correlate with Psychological Well-being among Older Adults?
- P062 Basic movements' ability and body composition of women aged 60-81 y.o. in urban Arctic population
- P063 Predictive validity of successful aging's models - associations with survival and long-term care
- P064 Is fatigability associated with unmet physical activity need among community-dwelling older adults?
- P065 Developing an Intervention to Promote Active Ageing (AGNES-promo)
- P066 Life-space mobility in Parkinson's disease: Associations with motor and non-motor symptoms
- P067 Informal support for independent older adults: Does it help with hospitalization processes of care?
- P068 Place of residence in patients presenting Urgent Geriatric Outpatient Clinic: a 12-month follow-up
- P069 Same patients? Comparing results from qualityregistries in acute geriatric and orthogeriatric wards
- P070 To Survey the need for public facilities of the Thai elderly
- P071 Psychometric properties and performance of the thriving of older people assessment scale
- P072 Functional assessment of older people in long-term care: exploring discourses of care professionals
- P073 Nutritional screening of patients at a memory clinic – association between patients' and their relat
- P074 Dual and multitasks in older people: A proposal to measure performance in cognitive and motor tasks
- P075 Psychometric analyses of the English version Person-centred Climate Questionnaire–Family (PCQ-F)
- P076 Can you still get it when you are this old? Experiencing cancer and cancer care at an advanced age
- P077 Exercise program for patients with cancer-related fatigue: Literature review
- P078 Association between gray matter and gait during dual-tasking among community-dwelling elderly adults
- P079 25 hydroxyvitamin D, midlife physical activity and cognitive function among older adults

- P080 Influence of dichotic listening on attention and gait during dual-tasking in healthy elderly and MCI
- P081 Moderate alcohol consumption does not protect cognitive function
- P082 The effect of dark chocolate flavanols on cognition in older adults: a randomized controlled trial
- P083 Timed Up-and-Go dual-task performance in people with cognitive impairment
- P084 Health perceptions, life satisfaction, and multimorbidity trajectories among Swedish older adults
- P085 Multimorbidity in nonagenarians: The Vitality 90+ study
- P086 Housing challenges for ageing societies: A comparison of Sweden and Japan
- P087 The role of depression on subjective memory complaint in mild cognitive impairment
- P088 Association between the use of proton pump inhibitors and cognitive impairment in older adults
- P089 Time from symptom debut to dementia assessment by the specialist health care service in Norway
- P090 Effects of a Rice-Farming Aare program on Cognitive Functions and Mental Health
- P091 Developing culture sensitive dementia care by Cocreation with Turkish caregivers
- P092 Lessons of The Takashimadaira On-site Study: Challenging Toward Living Well with Dementia in Tokyo
- P093 The Effects of Neuro-Linguistic Programming Counseling on Depression of the Elderly with Chronic ill
- P094 Staff perceptions of the design of care environments for older people – a qualitative study
- P095 Disability duration, life satisfaction and ageing. A 5-year longitudinal panel study
- P096 Can the relationship between multidimensional frailty and ADL disability be moderated?
- P097 Use of health care services among older adults participating in FINGER multidomain intervention
- P098 Quality of life and use and costs of health and social services in old people living alone
- P099 Differences between the attitudes towards elderly care among Japanese and Finnish nursing students
- P100 Swedish National Graduate School for Competitive Science on Ageing and Health (SWEAH)
- P101 Students' experiences in problem-based learning (PBL): to raise interest in gerontology
- P102 Fall prevention among older adults – effective teaching methods in health care education
- P103 Glycaemic control considering health status in geriatric patients with diabetes mellitus
- P104 Development and pilot-testing of a Video Decision Aid for improving End-of-life care planning among
- P105 The impact of bereavement on health among mortality among older adults
- P106 Pain suffering at the end of life for nursing home patients. A preliminary validation of the Mobiliz
- P107 Functioning in ageing populations and consequences for alcohol consumption
- P108 The prognostic role of problems with memory and complex ADL for mortality in the HUNT3 70+ Study
- P109 The Specific Types of Dignity Realization of Patients with Stroke
- P110 Risk factors for injurious falls in older adults: The role of sex and follow-up time
- P111 Dual-task induces significant alterations in the gait kinematics of older adults
- P112 Associations between Downton Fall Risk Index and fall-related injuries
- P113 Temporal trends in impairments of physical function among older adults during 2001-2016 in Sweden
- P114 A new norwegian study of health and ageing (norse)
- P115 Exploring empirical relationships between person-centredness and quality of nursing home care
- P116 Two-year changes in gait variability in community-dwelling older adults
- P117 Struggle of decision making about medical treatment for older patients in an acute hospital in Japan
- P118 Intergenerational solidarity: perspectives and representations
- P119 Piloting Remote Coaching and Digital Material in Health Exercise for Older People
- P120 Key Project Strength in Old Age Implementation
- P121 A model for cooperating with volunteers in the health care sector
- P122 Dialogue with life - experiences of ageing
- P123 Household Activities in Later Life
- P124 Needs and Empowerment in Later Life
- P125 Cheers Lads! Nursing Homes for Older People with Substance Use Disorder in Swedish Print Media

P126	Memory MIKE - An Instrument for Assessing and Monitoring the QALY of a Person with Memory Disorder
P127	Namaste Care Family for people with dementia: first experiences of staff and family caregivers
P128	The Future Ageing of the Arctic Population: Modelling its Dynamics by Education
P129	Accessible entrance for seniors' homes in Winter Cities
P130	Geriatric Academy - sharing knowledge
P131	CEDAW and the capability approach as a way to promote elderly women (in the North)
P132	Determinants of home-based formal help in community-dwelling older people
P133	The Importance of Information in a Market-Based System
P134	Together in the Neighbourhood Project - joy and sense of community to the lives of elderly residents
P135	Cognitive impairment and Resource Use in Swedish Nursing Homes - Results from the Swenis Study
P136	Safe care to older patients in the transition between hospitals and local care services
P137	Ageing profiles in the rural interior border of Portugal

---

## Friday May 4 19-17

The posters with numbers P138-236 will be in SAL D.

The posters with numbers P237- P311 will be in Forum.

Posternr	Title
P138	The Disability Pension Gap between non-Western Immigrants and Natives: Evidence from Denmark
P139	Fear of Crime, Health and Perceived Vulnerability
P140	Do Self-Rated Health Predictors Differ Between Women and Men?
P141	Changes in health and health-seeking behaviours among older adults in China: a longitudinal report
P142	Effects and feasibility of strengths-based intervention on health of dementia family caregivers
P143	Care patterns and quality of life in older social care service users in the UK
P144	Parental Social Support System that their Children Recognized and its Factors in Japan
P145	Helping ageing parents – the role of responsibility norms and relationship quality
P146	Dialing In To The Needs of LGBT Older Adults: SAGE Metro Detroit's Friendly Caller Program
P147	Aspects of Stories about Childhood among Older Men in Japan: A Text Mining Approach in Life History
P148	Memory now and then - A longitudinal comparison of subjective memory at the age of 40 and 70
P149	They also do it: Internet usage of older adults living in residential care facilities
P150	Improving older people's mental wellbeing - information, skill and methods
P151	Becoming work friends. Staff experiences from culturally diverse reflection groups on elder care
P152	Determinants of increasing employment rates for older workers
P153	Lean Methodology Improves Opioid Use for Chronic Pain among Elderly in an Acute Care Unit
P154	Physical activity tracking in older adults' everyday life
P155	The Relationship between Health and Empowerment - a Study of Older Adults in Ostrobothnia
P156	Older adults with lower cognitive performance feeling younger
P157	Contrasting Age-Related vs. Terminal Change in Well-Being: The Role of Health
P158	College Students' Knowledge About Aging: China, Japan, and the United States
P159	Interaction Human-Robot: A methodological proposal to evaluate actions performed by robots to elderly
P160	Well-being and Engagement intervention: determinants of implementation by professional caregivers
P161	Age differences in morale among older people: results from Western Finland and Northern Sweden
P162	Illusory Target Motion and activities of daily life in older adults

- P163 'There Isn't Any Great Age Difference, Not in Your Heart': Exploring Intergenerational Friendship
- P164 Evidence Based Practice in Gerontological Social Work
- P165 Dimensions of Social Space in Very Old Age
- P166 Job environment exposures and dementia risk in late life – do they moderate the effect of APOE e4?
- P167 The association between social exclusion and well-being in older adults from rural and urban areas.
- P168 Social networks in old age: The case of older migrants and natives in Switzerland
- P169 A typology of changes in social networks and its effects on mental health in old age
- P170 Convex Analysis of Age Dependent Heart Electrical Instability
- P171 Emotional intelligence in older women with ischemic heart disease in depending on ejection fraction
- P172 Relationship of metabolic diseases with physical activity depending on age in Korea
- P173 TRAILDEM- Trajectories of cognitive impairment and dementia, and risk factors for progression
- P174 Review of Animal Assisted Therapy with visiting dogs in Dementia
- P175 Cognitive impairment no dementia, frailty and incident dementia: systematic review and meta-analyses
- P176 The Meaning of stage Congruent Responsive Behaviors (SCRB) in Dementia/Major Neurocognitive Disorder
- P177 Future focus in dementia diagnostic- can registers contribute?
- P178 The relation between blood pressure and cognitive health varies with age
- P179 Quality of life and Paracetamol In advanced Dementia (Q-PID trial)
- P180 Meeting the challenge of depression in older people: current evidence and future directions
- P181 Implement in earliest geriatrics: Interprofessional know-how to prevent instead of iron out
- P182 Childhood social class as a moderator of late-life cognitive abilities
- P183 Association between grip strength and comorbidities
- P184 Is long-term endurance exercise a risk factor for osteoporosis in older women?
- P185 Anticholinergic drugs and their association with psychological well-being and mortality
- P186 Change in QOL after an Intervention for People with Dementia: A Cluster Randomized Controlled Trial
- P187 Oral health at the end of life: a prospective description of oral symptom severity in dying nursing
- P188 The Balance Confidence, Health Status and a multitasking evaluation protocol in the elderly
- P189 Poor appetite and associated health conditions among community dwelling older adults in Iceland
- P190 'Mealtime Activity Agreement' – Settling with resident passivity in Rehabilitation mealtime care
- P191 Adequate energy intake two weeks after discharge prevents readmission to hospital
- P192 The frailty index is a better predictor for the need for care than ADL and multimorbidity
- P193 Prevalence and risk factors of frailty among home care clients
- P194 Mobile Geriatric Teams – a cost-effective way of improving patient safety and reducing health care u
- P195 The effect of increased elderly population on general practitioner visits and mortality rate
- P196 Older adults' experiences of living with long-term health problems at home
- P197 Changes in activities of daily living among nursing home samples in Norway
- P198 Cohort differences in longitudinal change in functional ability
- P199 Factors associated with risk for developing illness by older people living at home
- P200 Combined effect of lower extremity function and cognition on perceived walking ability in old age
- P201 Mobility and cognition at admittance to the nursing home
- P202 The register for old age psychiatry (QualAp)- variation in assessment and treatment - does it matter for future planning?
- P203 Consequences of pain in nursing home residents
- P204 Healthcare services for elderly in municipal acute wards
- P205 Nursing patients with pressure ulcers in Geriatrics
- P206 Nursing Students experiences of medication administration errors in elderly care
- P207 Insights on matches and mismatches between nurses and older adults in a health promotion setting
- P208 Predictors of physical and leisure activities in residential aged care facilities:U-Age Swenis study

- P209 Joy of life in nursing homes: A qualitative study of what constitutes the essence of joy of life in
- P210 Housing-related control beliefs in the association of housing accessibility and daily activities
- P211 Trends in the use of care among people with cognitive impairment in the Netherlands
- P212 Moderating Effects of Adaptive Coping on the Relationship Between Perceived Caregiving Burden and Qu
- P213 Intervention study on the effect of integrated care among the older population
- P214 Relationship between cognitive performance and mobility over the life-course
- P215 Loneliness and objectively measured physical capability in middle-aged adults
- P216 Risk Profiles for Care Dependency – a German Cohort Study Examining Predictors of Care Dependency
- P217 Nurses' feelings and thoughts about older residents' psychological care in long-term care facilities
- P218 Creating a magnet nursing home: practice outcomes from international research collaboration
- P219 Factors associated with social activities in nursing homes
- P220 Immediate effects of yoga on psychological distress in people with Parkinson's disease: a randomized controlled trial
- P221 Modified Early Warning Score (MEWS) – Nurses' experiences with use of MEWS in homecare services
- P222 Experiences from a pre-operative comprehensive geriatric assessment (CGA) before colon cancer surgery
- P223 Association between preoperative physical status and postoperative outcome in oncogeriatric patients
- P224 Oral health among elderly people: assessed from two perspectives, self-perceived and professional
- P225 Chronic Pain, Family Functionality and Loneliness in Elderly Followed by Pain Service
- P226 The meaning of spirituality and dignity in old age
- P227 Use of alcohol and drugs with addiction potential among older women and men
- P228 Muscle and bone mass in middle-aged women: role of menopausal transition and physical activity
- P229 Imperative future to-do list: We face the problems - but do we really eliminate the reasons?
- P230 Poor health related quality of life: a risk factor of emergency visits among older adults
- P231 Older clients and new challenges: Changes in Iceland outpatient physical therapy from 1999 to 2015
- P232 Long-term home-based physiotherapy after hip fracture operation – HIPFRA study (NCT02305433)
- P233 Hearing loss, marital status and mortality in Norway
- P234 Health inequity: The position of older men living alone
- P235 Socioeconomic inequalities in malnutrition among older adults: Results from the FRADEA study
- P236 Outpatient physical therapy services for older stroke survivors in Iceland in 2001-2015
- P237 Patient-schools and quality of life after hip surgery.
- P238 Accessibility on sidewalks for seniors in Winter Cities
- P239 Nurse-assisted personal hygiene to older adults 65+ in home care settings
- P240 Older adults' involvement in own rehabilitation
- P241 Strengthening communication culture by guidelines, communication agents and feedback training
- P242 Is emotional closeness between frail elders and their live-in foreign domestic helpers related with
- P243 Integrated Home Care Service: Collaboration of Home Care Nursing and Social Service
- P244 Training professionals to implement an RCT-based group model for alleviating loneliness
- P245 Individual identity and autonomy for care home residents: findings from the HARP study
